PROFESSIONAL ACTIVITIES

REGULATORY/MONITORING ACTIVITIES

The Institute of Chartered Accountants of Guyana (ICAG), as a member body of the Institute of Chartered Accountants of the Caribbean (ICAC) continued its audit monitoring services with the Association of Chartered Certified Accountants (ACCA). The audit monitoring programme was initiated in 2008 through ICAC in partnership with ACCA and ICAG.

The visit cycle was revised in keeping with Statement One (1) of the Membership Obligations of the International Federation of Accountants (IFAC) which mandates that the review cycle period for firms performing audits of financial statements of public interest entities be three years while retaining the six-year cycle for firms with no audits of financial statements of public interest entities.

Effective January 1st, 2022, a service contract was awarded to the Association of Chartered Certified Accountants which for an initial term of three (3) years and for a further three (3) years in an extended term of review cycle periods.

ACCA has its own independent monitoring unit, known as the Practice Regulation Department with personnel having the required qualifications, expertise, skills, experience and integrity of character to discharge the duties of monitoring – which was developed over a 25-year period following the statutory requirement for the monitoring of licensed auditors introduced in the United Kingdom by the Companies Act 1989 and continued in the Companies Act 2006.

ICAG has appointed a Regulatory Committee as a mechanism for reports from auditing visits to be considered for identification of actions to be taken in respect of deficiencies found at individual firms and the general trends emerging from such visits as a basis for pro-active technical programmes to be developed. The Regulatory Committee is composed of non-practicing members supported by a legal counsel.

The Regulatory Committee has identified the need for remedial actions and sanctions in respect of auditors who have repeated unsatisfactory outcomes at their monitoring visits, in keeping with the requirements of IFAC Statement of Membership Obligations (SMO) 1 on Quality Assurance which sets out the requirements of an IFAC member body with respect to the quality assurance review systems for its members who perform audits, review, other assurance and related services engagements of financial statements.

Council has been advised and so recognise that it is not responsible regulation to allow non-compliant firms to continue to audit where firms persistently have unsatisfactory outcomes and fail to make the necessary improvements.

These are issues that ICAG will have to be responsive to in order to provide assurance to the public that it continues to work to strengthen the profession in the country through compliance with internationally acceptable standards.

The continuation of this programme, including remedial actions and sanctions, are necessary for the ICAG to remain compliant with SMO 1.

TECHNICAL ACTIVITIES

The ICAG continues to work with other member bodies to ensure that adequate professional development sessions are conducted, some of which includes:

- Requirement for Statutory Records to be kept in Guyana - Christopher Ram
- The accountancy profession and Anti-money Laundering and Countering the Financing of Terrorism – Amrita Henriques Singh
- New Sustainable Accounting Standard – Khalil Alli

TAXATION

The Institute of Chartered Accountants of Guyana continues to engage regulatory bodies on the following:

The Accountancy profession and developments in Guyana's Oil & Gas sector, through various media platforms.
